Summary

I am a recent college graduate (May 2019) with a B.A. in Japanese Modern Languages and a minor in Computer Science. I am an artist and a programmer with 3+ years studying Japanese and communicating in the language and 11 years of programming experience using various C++ among other languages.

Additional Experience:
* 14 years software development (hobby games, as well as some professional experience)
* 11 years of C++ and Python
* 2D and 3D Rendering Engines such as Ogre3D, DarkBasic (C++ Ver), Blender Game Engine, SDL, OpenGL, Unity, Unreal Engine, Qt
* Graphics Design using GIMP 2, Krita, Inkscape, Blender
* 2D and 3D modeling and animation using Blender, Krita, GIMP 2
* Additional programming/scripting languages: C, C#, Lua, XML, HTML, CSS, Java, Javascript, Bash, Make

I am currently searching for a job in the field of Computer Science. Specifically I can do Software/Web Application Development and Graphics Design. I am very adaptable and strive to be the best team player I can be. I enjoy learning new things no matter how impossible it seems at the time. I have moved up the ladder in nearly every position I have held.

Experience

Beauty Advisor

Sally Beauty

Oct 2019 - Present (9 months +)

My primary role here is to promote sales while providing satisfactory customer service. Other duties include inventory management such as stocking and plan'o'grams, accounting and bank deposits, and leadership/ training for my associates.

In addition, I have been involved in innovating ways to make the job easier for people to work by creating quality management systems. For example, putting together a spreadsheet to make counting cash easy, safe, and efficient.

Skills include:
* Customer Service
* Inventory Management
* POS Systems
* Training Other Associates
* Opening & Closing Protocols

Cashier

Publix Super Markets

Oct 2016 - Aug 2017 (11 months)

My role was to run the POS and provide superior customer service. I was to keep my assigned area clean and help customers with their needs. I also needed to be available for odd jobs that required attention throughout the store, as well as perform opening and closing duties.

Skills Include:
* High-speed POS operation
* Customer Service
* Grocery Bagging Efficiency
* Problem-solving
* Product Knowledge

Shift Manager

Jets Pizza

Dec 2014 - Aug 2016 (1 year 9 months)

I began employment at Jet's Pizza as an inside crew member. I made no deliveries, but handled phone orders, cleaned the back room and washed dishes. I moved up quickly and began to take on many more tasks. After six months I became a Shift Manager.

Though I was Shift Manager in name, the store had no Assistant Manager so I was trained in that role as well. My duties included training employees, inventory management which included observing what we had and ordering what we needed, POS and bank deposits, opening and closing the store, and running the pizza make-line. Other management duties involved making sure up to 10 employees were assigned tasks according to their strengths and weaknesses, and aiding them in those tasks when needed.

Skills include:
* Employee Training and Management
* Opening and Closing Protocol
* POS Management
* Inventory Management
* Task Efficiency

Web Designer

Citizencrane Solutions

Mar 2014 - Jul 2014 (5 months)

My job here was to create a web application to manage and run tests using HTML+CSS with Internet Explorer 7+ compatibility. All background tests and database connections were done using a C# powered server that I programmed to work with the HTML. I used programs such as Inkscape and GIMP 2 to create icons, logos, and other images utilized by the UI. All of the programming was done using Visual Studio. I managed the project online using Visual Studio's interface as well, pulling the project to work on it and re-uploading it to submit changes.

Skills Include:
* C#
* HTML
* CSS
* Compatibility with IE7
* MySQL
* Inkskape
* GIMP 2

* VIsual Studio

Education

Clemson University
Bachelor of Arts - BA, Japanese
2016 - 2019
Minor in Computer Science

Graduated May 2019

Chukyo University
Japanese Studies
2017 - 2018

Greenville Technical College
2014 - 2016

Honors & Awards

Clemson University Dean's List - Fall 2016 - Clemson University
Dec 2016
Award for achieving a GPA of at least 3.5 for a semester.

Clemson University Dean's List - Spring 2017 - Clemson University
May 2017
Award for achieving a GPA of at least 3.5 for a semester.
